

# Lieferando!

**Need to change a shift but Lieferando doesn't allow it? Need to fix your bike? Don't know which rain-gear or wintershoes to buy? Ever struggled with your contract or pay roll? Ever wondered how much flexibility Lieferando can demand? Ever find it difficult to keep up Corona health measures with so little support? Your fellow riders will help you!**

## **Unite**

It's always the best to turn to someone who is sharing your experience. Riders of Lieferando are usually organized in WhatsApp groups - get in your local group and share what is on your mind - your fellow riders are very likely to be able to help you!

## **Inform**

Also, these WhatsApp groups are a very good pool to inform yourself: riders share what worked negotiating better conditions or getting your rights through.

## **Organize**

You can get even more and more informed support if you join an union, as many other riders already did. Unions give legal advice and support you in your negotiation with your boss. It is far harder to turn you down if you are well informed, organized and know your rights!

## **How do I find my local WhatsApp Group?**

Connect with other riders! Ask your colleagues or the union if a WhatsApp group exists. If there is no group in your place yet - start one yourself! Or join the Berlin riders: <https://fckaf.de/MG5>
